

Ole Red 1.1 / XL – Technical Specifications & Advantages

OLE RED H₂S SCAVENGER SPECIFICATIONS

OLE RED is proud to offer its two premium scavenger products: OLE RED 1.1 and OLE RED XL. Built on over 35 years of experience in H₂S scavenging, our mission is simple: dramatically reduce the cost of H₂S removal while delivering the newest, most effective, and most reliable scavenger available. We accomplish this through full vertical integration—owning every part of the supply chain, from the mine to the wellhead. No middlemen. No inflated pricing. Just proven performance and superior value.

KEY ADVANTAGES

- Owned Supply Chain
 - Full control over quality, consistency, and delivery.
 - End-to-end integration from raw materials to finished product.
- No Middlemen
 - Transparent pricing.
 - Faster, more responsive service.
- Low-Cost Provider
 - Premium performance without the premium markup.
 - Maximize margins while reducing OPEX.
- Seamless Integration
 - Ole Red works with your existing inlet water injection system (if needed), separator, and scavenger vessel.
 - No costly equipment modifications required.
